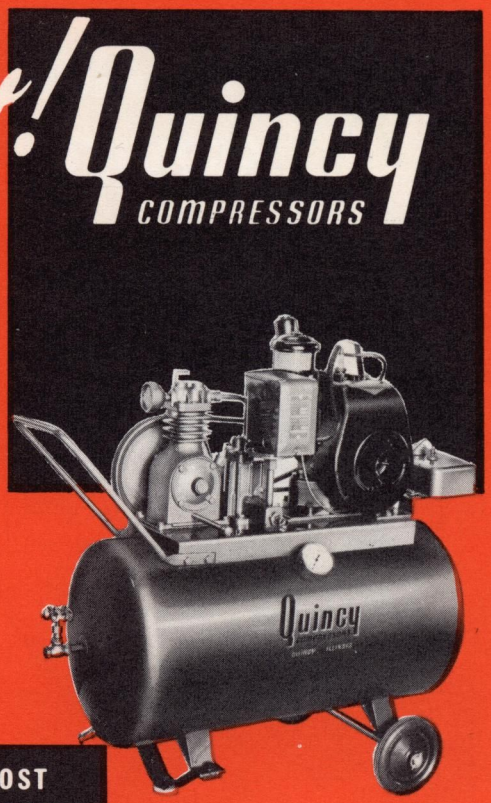
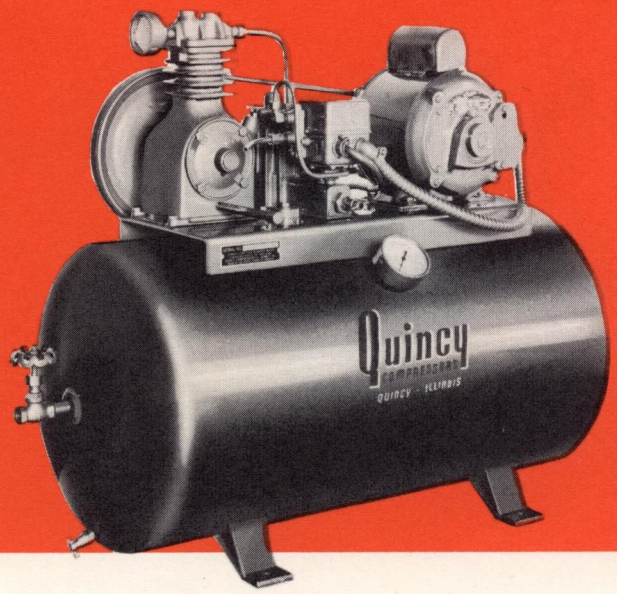
New! Quincy COMPRESSORS FOR FARM SERVICE



MOST ECONOMICAL COMPRESSED AIR SUPPLY

Model FE-2 Portable

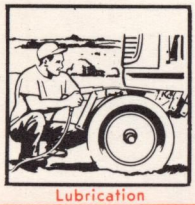


Model FE-2 Tank Unit

Inflating Tires

Spraying Animals

Painting Outbuildings



Lubrication

Now you can have the convenience of compressed air on your farm with real economy from the start. These new, low cost Quincy Compressors are designed especially for farm service. They're rugged — for long wear under tough conditions. Compressors provide high pressure air supply (110-135 lbs.) 20 gal. capacity tank constructed of heavy gauge steel is furnished complete with safety valve, drain cock and automatic shut-off switch. Equipped with electric motor or gasoline engine. Units with portable mounting have rubber tired wheels. Each electric motor driven unit includes 10 ft. cord with plug. You can depend on the Quincy Model FE-2 for years of efficient compressed air service with economical first cost and really low cost operation. Quincy Compressors are backed by 30 years of experience in building air compressors exclusively!

ONLY *Quincy* OFFERS ALL THESE FEATURES
